Journal of Materials Processing Technology, 22 (1990) 355–356
Elsevier

Contents Volume 22

Vol. 22, No. 1

Springback in the stretch-bending of sheet metal with non-uniform deformation
W.Y.D. Yuen (Port Kembla, NSW, Australia) 1
Stretch forming of beams of non-uniform section
A. El-Domiaty (Port Saied, Egypt) 21
Approximation of the axial strains developed during the roll forming of ERW pipe
T.R. Walker and R.J. Pick (Waterloo, Ontario, Canada) 29
Forming behaviour of sheet steel laminate
J.K. Kim and P.F. Thomson (Clayton, Australia) 45
Validation of the finite-element model of the tube-sinking process
M. Pietrzyk and L. Sadok (Krakow, Poland) 65
Profile control in tube flaring by electromagnetic forming
M. Murata and H. Suzuki (Tokyo, Japan) 75
Influence of strain rate and temperature on the friction factor of commercialy pure titanium
P. Venugopal (Madras, India), S. Venugopal and V. Seetharaman (Kalpakkam, India) ... 91

Short Communications
Some observations on the use of expert systems for the ball-burnishing operation
S.W. Lye and K.C. Leong (Singapore) 99

Letter to the Editor 111

Diary of Events 115

Vol. 22, No. 2

Research into mirror surface finishing by the ironing process
N. Kawai (Nagoya, Japan), K. Dohda (Gifu, Japan), Z. Wang (Nagoya, Japan) and K. Akiyama (Aichi, Japan) 123
Analysis of the limit strains of coated sheet steel for different strain paths
J. Gronostajski (Wroclaw, Poland), W.J. Ali (Mosul, Iraq) and M.S. Ghattas (Mansoura, Egypt) 137
Separation behaviour of sheet steel laminate during forming
J.K. Kim and P.F. Thomson (Clayton, Australia) 147
Influence of strain rate on the cold extrusion of commercially pure titanium
P. Venugopal (Madras, India), S. Venugopal and V. Seetharaman (Kalpakkam, India) ... 163
The effect of the temperature rise of the roll on the simulation of the flat rolling process
M. Pietrzyk (Krakow, Poland) and J.G. Lenard (Waterloo, Ontario, Canada) 177
An experimental investigation into tube to tube-plate welding using the impactor method
J. Krishnan, A. Kakodkar, G.P. Reddy (Bombay, India), H.S. Yadav, G. Haldar and B.T. Patil (Pune, India) 191
Analysis of the rotational compression of a cylindrical billet in the transverse rolling process
N.S. Cho, K.H. Na and J.H. Kim (Seoul, Korea) 203

Diary Supplement 217

Vol. 22, No. 3

Improvement of equipment for closs-tolerance forging and extrusion in Japan
T. Matsushita (Kobe, Japan) 223
Technologies for the more precise press-forming of automobile parts
Y. Umehara (Aichi, Japan) 239
Development of high-precision shape and crown control technology for strip rolling
T. Kawanami (Kanazawa-City, Japan), T. Asamura (Tokyo, Japan)
and H. Matsumoto (Kitakyushu-City, Japan) 257
Improving accuracy of electronic components in press-working
T. Adachi (Kawasaki-City, Japan) 277
On high speed precision blanking of IC lead-frames using a progressive die
T. Jimma and F. Sekine (Yokohama, Japan) 291
Towards net-shape forming
H. Kudo (Tokyo, Japan) 307
Forming technology for raising the accuracy of sheet-formed products
Y. Tozawa (Nagoya, Japan) 343
